

Dr. Eugen Mengel
SphinCS GmbH
Geheimrat-Hummel-Platz 2
65239 Hochheim

CURRICULUM VITAE

EDUCATION

2000 Investigator in Clinical Trials.

Johannes-Gutenberg-Mainz, Germany
Coordination Centre for Clinical Studies.

1992 German Medical States 3. Examination.

Goethe-University, Frankfurt

1991 German Medical States 2. Examination.

Phillipps-University, Marburg

From October 1986 to September 1992 study of medicine in Marburg and Frankfurt.

EXPERIENCE

From April 1993: Junior House Officer **Approbation 1.11.1994 in Rheinland-Pfalz.**

Since 2001 **Consultant in pediatric Inborn errors of metabolism.** Children´s Hospital, University of Mainz (Germany).1.09.2001

- **Principal Investigator** in international ICH-GCP conform studies concerning lysosomal storage disorders:

1. Natural History Study of Niemann-Pick disease type B
2. Peripheral Neuropathy study in Gaucher disease
3. RhAglucosidase for infantile Pompe disease 2011-00595-42
4. International ERT Phase II/III Studies in MPS IV A 2010-020198-18
5. Phase III studies LAL-deficiency 2011-002750-31
6. Phase 2/3 ERT in A-Mannosidosis
7. Phase 3 study in NPC with the IMP Arimoclomol 2014-005194-37
8. ERT Phase II/III Studies for ASMD 2014-003198-40
9. ERT Phase 2/3 in Pompe disease with NeoGAA 2016-000942-77
10. ERT Phase 2/3 in Pompe disease with Revoglucosidase 2013-001768-48

- **Sub investigator and Deputy of Michael Beck** in international multicenter trials for ERT in Fabry disease, Mannosidosis, Pompe disease, MPS II, MPS VI and MPS I
- Outpatient clinic for general metabolic, MPS, Gaucher, Niemann-Pick and Fabry patients
- Lectures about sphingolipidosis and MPS for students of medicine in biochemistry
- 2001 Certification for Investigator in clinical trials: KKS Mainz
- Biochemical diagnostic LSD laboratory – from 1995 – 2019 – extensive knowledge in the clinical and biochemical diagnostics of LSDs
- 2005 Wachtel Award for the best presentation of the annual meeting of the German Society of Pediatric Metabolic Medicine (APS)

- Organization and moderation of the lecture "Immunological aspects of Gaucher disease" (12/2000) and "Neuronopathic Gaucher disease" (6/2001)
- 2014 Chairman of the annual meeting of the German Society of Pediatric Metabolic Medicine (APS)
- 2015 Chairman of the annual meeting of the German Society of Adult Metabolic Medicine (ASIM) – Subgroup of the German society of Internal Medicine (DGIM)
- General metabolic and LSD outpatient clinic since 1995
- Responsible consultant for Gaucher and Niemann-Pick outpatient clinic since 1999 and Pompe in 2006
- Student education in pediatric hematological, oncological and metabolic diseases
- Lectures in the study centers KKS Heidelberg and Mainz: International multicenter trials in orphan diseases
- Co-author of 129 peer-reviewed publications, focus on Gaucher disease (37), Niemann-Pick (32) and Pompe disease (26).
- Active member of the SSIEM, ESGLD and EWGGD
- Board Member of several company Registries in Pompe disease (Sanofi Genzyme), Gaucher disease (Sanofi Genzyme) and Niemann-Pick type C (Actelion).

Jan. 1993 - June 2001: **JHO**. Children´s Hospital, University of Mainz (Germany).

Curriculum: **oncology**, neurology, urology, cardiology, infectiology, neonatology, pediatric intensiv care, **metabolic diseases, Gaucher disease**.

June 2001 – March 2019: **Consultant** in pediatric metabolic medicine for the childrens hospital Gutenberg-University Mainz, Leading **Consultant** of the LSD out-patient clinic. Department of Lysosomal Storage Disorders in Mainz. (Villa metabolica).

Last position started in July 2019:

Principle investigator, founder and CEO of the SphinCS GmbH & SphinCS Lyso non-profit UG, independed institute of clinical science in LSDs.
